COVER—Governor Robert W. Scott and Attorney General Robert Morgan posed for the cover photo just before meeting with leaders of the North Carolina Consumers Council. The two Roberts have pledged themselves to make the next four years of progress for all North Carolinians. We salute them and refer you to the articles on pages 6 & 7.

(The Carolina Farmer is indebted to the nationally-circulated Holiday Inn Magazine for use of the color separations of the ski scene for our February cover)

The Biggest Bargain Is a Local Buy

The other day a teenage miss received still another pressuring letter from a national record club. If she didn't settle her account immediately, the letter threatened, her name would be turned over to a collection agency.

The girl was both indignant and worried. "I didn't ask for those records," she said. "When I joined they said I could pick the records I wanted but when I told them I didn't want any more they sent them anyway. They keep sending me bills for records even when I already have sent the records back."

Many teenagers have had similar experiences. Adults too have found after joining mail order record and book clubs that once you sign in you can't sign out. Even supposedly reputable firms are guilty of misrepresentation and pressure selling through the mails. Books, records and magazines keep coming, along with threatening letters, in spite of repeated efforts by the aggrieved customer to break free.

So be forewarned. Be wise. Buy North Carolina. Buy from merchants and stores you know. See what you're getting and know the terms—if you aren't paying by cash or check—before you complete the purchase.

Buying by mail is always a chancey business.

North Carolina's many rural communities, towns and cities have businesses capable of supplying nearly every item North Carolinians logically can be expected to buy. You not only stand a better chance of getting satisfaction by trading with local businesses, you also, in spending locally, contribute to your community's economic growth.

The "Send No Money, Just the Coupon" invitation is too often an invitation to trouble, whether the advertiser is selling a product or a scheme.

Know from whom you buy, and you'll know to whom to go if you're not satisfied. And you and North Carolina's economy will be better off in the bargain.

—*Jim Chaney*

TARHEEL RURAL LINES

reports on events of importance to rural electric co-op members/by J. C. Brown Jr.

EQUALIZATION IN THE UTILITY INDUSTRY

A columnist writing for the Charlotte News claims the Nixon administration will seek an "equalization tax" on rural electric cooperatives and public power projects.

The rural people who waited for so many years to get electricity, while the power companies claimed it was too expensive to serve them, are experts on equalization. That's what REA was all about. It was the nation's answer to unequal opportunity. Whether or not the columnist is right about the administration's intentions, or is just lobbying for the power companies, we don't know. The co-ops certainly would welcome equalization.

The private power companies serve an average of 26.7 consumers and receive an average of $4,248 per mile of line. The rural electric cooperatives have an average of 4.9 consumers and $511 in revenues per mile.

If the administration wants to equalize, it is either going to have to raise taxes on private power companies or lower them on rural electrics and public power systems.

The Charlotte columnist makes the point that "private-owned utilities pay about 23 cents in taxes out of every dollar they earn." In 1967, the rural electric cooperatives of North Carolina paid about 46 per cent of their net revenues in state and ad valorem taxes. Had they been in the business to make a profit, they'd have paid income tax on their income. Only by operating non-profit, and by being able to borrow low-cost federal loan funds, have the cooperatives been able to provide an equalization of utility service between the thinly-settled rural areas and the thickly-settled areas served by the power companies.

Hamil Returns to Head REA

David Hamil, popular REA Administrator during the latter half of the Eisenhower administration, will return to his post as soon as the administration confirms him. Hamil is a Colorado cattleman, and well known to North Carolina rural electric leaders.

Central-CP&L Case Settled

Central Electric Membership Corporation and Carolina Power and Light settled their territorial differences before reaching appeals court. The N.C. Utilities Commission had issued a ruling considered unacceptable and illegal by Central EMC. It called for a limitation on size of load in one area assigned to the cooperative. The final settlement removes the load limitation.

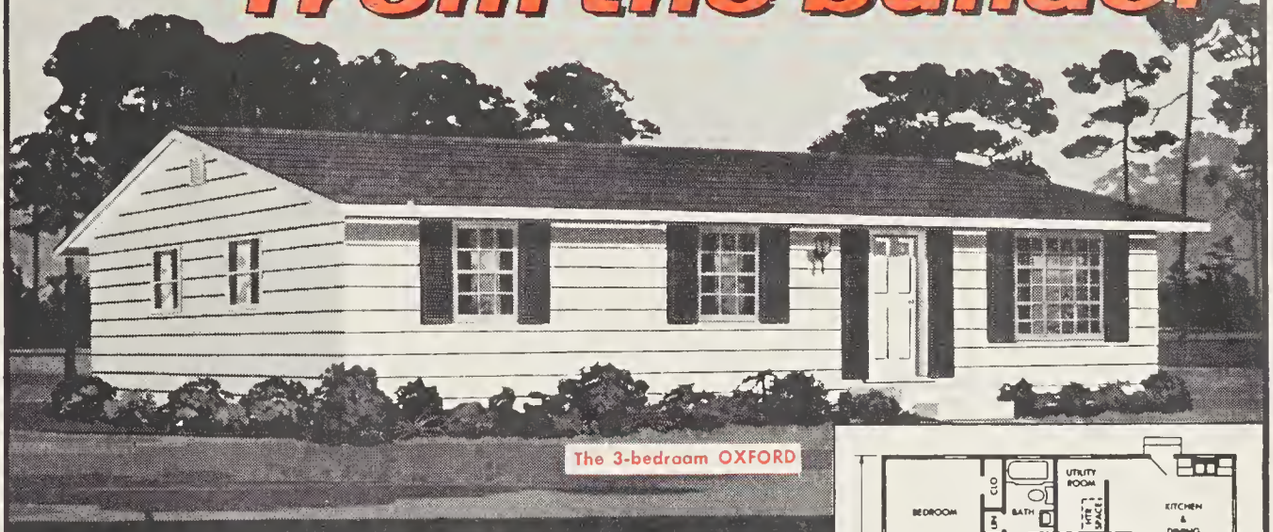
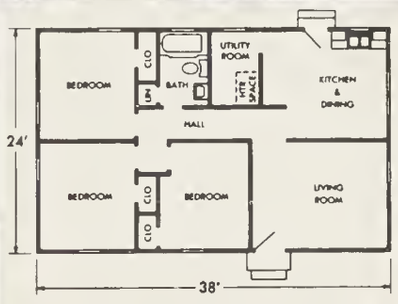
MORTGAGE FINANCING from the builder



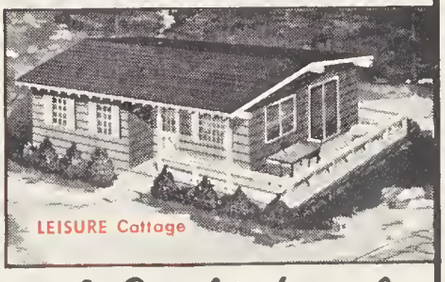
The 3-bedroom OXFORD



It's possible –at Jim Walter Homes

100% FINANCING • BUILT ON YOUR PROPERTY

There's an easy way and a hard way to build a home. You could choose a builder, scrape up a down payment, apply for a mortgage loan, and then wait . . . or you could go see Jim Walter and forget all the rest. When you have your new home built by Jim Walter, everything else is almost automatic. Immediate 100% financing is available to all qualified property owners directly from the builder. Jim Walter will build almost anywhere you own property — with no down payment. You need no cash — not even for closing costs.



No Shortage of Mortgage Money!

Because he's doing the financing, Jim Walter can make buying a new home easier in other ways too. We'll help you cut costs, and thereby keep your monthly payments low, by making it possible for you to do some of your own interior finishing. When we build your new home, we'll leave as much of the interior unfinished as you tell us to. (Try doing this with conventional financing.) We'll even supply the materials you'll need to do the job and include them when we finance your home.

When you're ready to build, remember Jim Walter, and you can forget all the rest.

A New Governor Proclaims a New Era

A new era is dawning in North Carolina.

If Governor Robert W. Scott achieves the goals he has set for his new administration it may become known as the Era of Realizations.

It would come not only in the realization of the Governor's goals but also in the realization of the aspirations of North Carolina's individual citizens.

It can come, the Governor said in his inaugural address, by accepting change and by meeting the challenges change sets before us.

"We should not cry out against what has altered," Bob Scott said, "for there is no retreat from change. I view it instead as the strong challenge of a new day. My administration shall neither shrink from the obligation it offers nor from the opportunity it presents.

"There is an old proverb which says, 'to think well is wise; to plan well, wiser; to do well is wisest and best of all.' During the coming four years, we will think; we will plan; we will do."

The Governor set as the goals of his administration:

"Government that merits the confidence of all our people."

"Balanced growth for every section of our state."

"Realistic and adequate planning for the future."

"A united community."

"The great challenge now facing North Carolina, Governor Scott said, lies in "the struggle to improve our environment."

"Realizing this," he said, "my administration will seek balanced growth by attacking problems that confront us now.

"Already we are hard-pressed by a per-capita income that is far too low. We will seek to raise it.

"There is too much inadequate housing. We must find a way to remove this blight.

"There are gaps in our programs for public education. They must be closed.

"There are old roads to be improved and new roads to be built. We must find the means to finance this program.

"We are blessed with natural resources—land, air, water, forests, wildlife. Let us conserve them.

"Our local governments are in need of help. Let us strengthen their hand.

"Businessmen and industrial leaders must be assured of stability in government, conditions for expansion of investment, and a firm belief in the free enterprise system. They shall have it.

"Labor must be provided job opportunities with good wages and working conditions. We must keep our economic growth rate at a high level to provide these opportunities.

"The early settlers described our state as 'the goodliest land under the cope of heaven.' To a great majority it is. But we still have too many poor, too many hungry, too many unskilled, too many hopeless. We have not done enough for our physically and mentally handicapped citizens. We must redouble our attacks on these conditions."

In many cases new legislation will be needed to come to grips with these problems and the many others North Carolinians face, the Governor said. When the 1969 General Assembly convened, he presented recommendations to provide the necessary legislation.

The better North Carolina the Governor hopes to help North Carolinians realize will be a state in which all citizens will have equal opportunity and none special privilege.

"In the next four years," he pledged, "I will seek to unite our people. I will not advance special goals nor specific programs for any single group. The emphasis will not be on black or white, rural or urban, worker or industrialist. Instead, the emphasis will be on programs for all North Carolinians.

"I hold fast to the belief that all men are created equal in the sight of God. I will strive to build a united community in which there is peace and harmony, where men are free from fear, where intimidation, force and violence become bygones of another day.

"There will be no toleration of extremists who seek only to divide our people—whether they take to the streets, whether they act unseen, whether they throw rocks and firebombs, or whether they burn crosses in the dark of night. We will work for the day—yes, we will live for the day—when every man walks in dignity and is mindful that he is regarded for his individual worth and that alone."

An earlier Scott spoke with equal vigor 20 years ago. Bob Scott recalled the man and the message.

"Let us recall the words of another Governor, spoken nearly two decades ago, in an address to a joint session of the North Carolina General Assembly," he said. "These were the words of that Governor—my father, Kerr Scott:

"'The courageous development of North Carolina through use of the power of the state government did not begin with my administration. It will not end with it. We have been fortunate in having Governors and Legislators who had faith in the people of this state and in the state's resources. What I want to advocate strongly to you now is that there be no halting of the advance—that we move steadily forward, building by plan and with confidence in the future.'"

Bob Scott paused here and then said:

"I, too—with your help—will seek that path."

And he added emphatically:

"Let the timid, the faint-hearted, the foot-draggers, the 'do-nothings' be forewarned. We are going to make progress during this administration. There is work to be done, and we're going to get on with the job."

—Jim Chaney

Rep. Richard Clark and Mrs. S. Collins Kilburn signing up Atty. Gen. Morgan and Gov. Scott for Consumers Council.

A New Era For Consumers

Governor Scott, Attorney General Bob Morgan and Agriculture Commissioner Jim Graham went on record in the Governor's Office in favor of the consumer and membership in the North Carolina Consumers Council.

Signing up as members themselves, they told representatives of the Consumers Council and press, radio and television newsmen assembled for the January ceremony a strong consumer organization can do much for all North Carolinians because everybody is a consumer.

The ceremony marked the start of the Consumers Council's 1969 mass membership drive. The Council already represents a half million North Carolinians through member organizations and local group and individual memberships. Mrs. E. Lee Jones of Hamlet is state chairman of the membership committee. Mrs. Wymene Valand is the Council's executive director.

The Consumers Council's interest, the Attorney General observed to the Governor, "is very much the same as your interest and my interest in trying to protect the consumer."

Attorney General Morgan, who plans to establish a Consumer Protection Division in his department, had to hurry from the ceremony to appear in a proceeding in behalf of telephone rate payers. "I'm leaving to do something for consumers right now," he said.

Governor Scott noted an "increasing interest on the part of consumers." He was glad, he added, that North Carolina now has a Consumers Council. "It's high time," he explained, "that the consumer—the individual consumer—has an advocate. I think you will find this administration very receptive . . . I have always thought of myself as being on the side of the consumer."

Agriculture Commissioner Graham put up the $1 to pay the Governor's membership fee. "I want you to get obligated to me," Jim Graham chuckled. The Governor joked that, as a family man with five children, he should qualify for a group membership.

Graham said the State Agriculture Department has many things going for consumers.

"Everything that goes in the food basket is our concern," he pointed out. "I don't want any of you to leave this office without knowing that I'll be working with the Governor and the Attorney General to help the consumer."

As the ceremony broke up, Rep. Richard Clark of Monroe, who succeeded Mrs. S. Collins Kilburn of Raleigh as president of the Consumers Council, told her he had signed up as Council members two other key Tar Heels: Lt. Gov. H. Pat Taylor and Speaker of the House Earl Vaughn.

You can sign up by writing to: N.C. Consumers Council, P.O. Box 10273, Raleigh, N.C. 27605. Ask for a membership form (or use the one from last month's Carolina Farmer). Dues are only $1. You can't buy a bigger bargain. And your $1 is needed if the Consumers Council is to do the job consumers like you want done.

Will You Be One of the Lucky Teens?

Last year's North Carolina Youth Tour Winners get a front-row view of the President on the White House lawn.

If you're a junior in a high school in an area served by an electric membership corporation, this could be your big year.

You could be one of the lucky juniors who will go to Washington on the 1969 National Rural Electric Youth Tour.

The Capitol, the White House, the museums and monuments of the nation's capital city are all on the Youth Tour. The 28 young North Carolinians who went to Washington on the 1968 Youth Tour saw all of them and more.

They not only saw the things Washington tourists see; they also saw behind the scenes where ordinary tourists usually don't get to go.

They were let behind the doors and through the gates to where the action is.

They met and ate with their U.S. Representatives and Senators at a Congressional breakfast held in honor of North Carolina's Congressional delegation.

They visited federal agencies like the FBI. They visited Arlington and saw President Kennedy's grave. They went through the mansions and monuments. They cruised with other members of the National Youth Tour on a boat trip down the Potomac River. They matched wits on a quiz show. They had a ball at a teen dance.

They were guests at the National Rural Electric Cooperative Association's headquarters.

And they were welcomed, with 944 other Youth Tour teens from 27 other states, by the President on the White House lawn.

President Johnson urged them to learn more about government and to become active in public affairs.

"You ought to give part of your talent, your time and training and learn how to become a public leader in a democracy," Mr. Johnson told them. "Every person in this land ought to have some governmental responsibility some time in his life."

The 1969 Youth Tour promises to be even bigger and better than the 1968 Tour. For one thing, there'll be a new President, new officials and a number of new Congressmen—a new regime to look in on. For another, there'll be more Youth Tour participants. This year 15 North Carolina EMCs may offer the opportunity to 32 high school students. Last year 12 EMCs sent 28 youths.

The exact details of the 1969 Youth Tour will be announced by your local electric membership corporation. It will be able to give you all the information you need to compete for a chance to go on the Tour.

If you are a winner, you'll get an expense-paid trip and a week in Washington.

The Tour this year will take place June 9-13.

Some of the Tour candidates will compete in essay contests. Some will be selected through public speaking contests. Some will be selected by other methods.

Remember: The electric membership corporation which serves your area will—if it participates—make the selections and will be able to tell you all you need to know to qualify.

If you live on the lines of a participating EMC you should watch for news of what your EMC is doing about the Youth Tour.

If you don't know whether your EMC is participating, call or go by its office and ask. If it is participating the person you talk to will be able to give you the facts.

Students seeking to join the 1969 Youth Tour should be of high school age. High school juniors will be given preference in most cases.

Sen. Sam Ervin and other Narth Carolina congressmen had breakfast with the teens.

One of the highlights af the Tour was a visit to the grave af Jahn F. Kennedy.

The graup saw changing of the guard at Washington's Arlington National Cemetery.

What Electric Cooperatives Stand For

Viewpoints and Objectives For Rural Electrification

The National Rural Electric Cooperative Association's Long-Range Study Committee (of which two North Carolina EMC managers, Cecil Viverette of Blue Ridge EMC and W. C. Carlton of Carteret-Craven EMC, are members) has given much consideration to self-help financing for rural electrics. But the Committee's interests go beyond financing. It also is recommending adoption of a set of viewpoints and objectives for rural electrification.

The Committee has recommended that each cooperative become involved "in a process of identifying and defining those activities and programs needed now by their cooperative in support of these objectives."

The viewpoints and objectives as recommended by the Committee:

RURAL ELECTRIC PROGRAM VIEWPOINTS

We believe: That the individual citizen, whether in rural or urban America, can and will achieve a sense of personal pride, self-accomplishment and family security if he is given a real opportunity to participate in social, economic and political activities as a free and equal citizen.

We believe: That this nation's human and physical resources, under God, must be developed and utilized to the maximum extent possible and that this productive resource should result in maximum public benefit, without regard to religion, race, creed, social or economic circumstances.

We believe: That the development of the potential of rural America and the utilization of its assets will make a major contribution to the welfare of the nation and the world.

We believe: That the principles of self-help cooperative enterprise embody the freedoms and inalienable rights granted by the Constitution of the United States, and are consistent with the highest ideals of the free enterprise system.

We believe: That rural electric cooperatives have major responsibilities for helping to raise the standard of living and for improving the productivity and the opportunity for economic prosperity in an ever-changing rural America.

RURAL ELECTRIC OBJECTIVES

Electric Service — Rural electric cooperatives must provide area coverage electric service at the lowest possible cost consistent with sound business principles. Rural electric cooperatives must anticipate the expanding energy requirements of their member-consumers in every respect and should achieve the highest standards of quality and continuity employing modern technology.

Power Supply — Rural electric cooperatives must achieve effective influence, control or ownership of an assured and adequate source of wholesale power in order to provide low-cost total utility service in their areas.

Capital — Rural electric cooperatives must develop and maintain effective influence, control or ownership of assured and adequate sources of low-cost capital — sufficient to enable them to assume full utility responsibility and to successfully fulfill their obligations as corporate citizens.

Territorial Protection — Rural electric cooperatives must achieve and maintain territorial protection to assure the continued development of economically sound systems able to adequately serve all present and future electric power requirements in their service territory.

Electric Power Marketing — Rural electric cooperatives must actively promote electric service as the most desirable, beneficial and economical method of meeting the total energy requirements of their member-consumers.

Cooperative Ownership and Member Relations— Rural electric cooperatives must strive to achieve and maintain widespread understanding, participation and involvement of their member-owners in the affairs of their cooperatives and provide them a real sense of ownership through a true demonstration of cooperative principles and the democratic process.

Management and Leadership — Rural electric cooperatives must encourage and support their already capable and dedicated directors and employees to improve and develop their capabilities and performance and must create the opportunity for individuals who understand and accept cooperative philosophy to achieve satisfying careers in their application of the principles, tools and techniques of modern management, while providing the leadership for a continually vigorous and dynamic rural electric program.

Organization — Rural electric cooperatives must attain maximum beneficial use of available manpower, physical and financial resources through sound organizational structure, coordination and integration of activities and a continuous program of self-evaluation and improvement.

Corporate Citizenship Responsibility — Rural electric cooperatives must secure favorable public support for their activities and assume a position of leadership in improving the social, cultural and economic status of those living in the rural community.

Community Development and Other Services — Rural electric cooperatives, as consumer-owned rural organizations, must identify and initiate or actively support programs which will contribute to the well-being of their member-owners and programs which will develop or improve community facilities and services.

Political Activity — Rural electric cooperative members and their leaders must maintain active interest and participation in appropriate legislative and governmental activities, including political action programs on a non-partisan basis.

Natural Resources — Rural electric cooperatives must promote development of the natural resources of the nation, including water, power and nuclear resources, for the benefit of all the people.

Best of Books

Iain Crichton Smith, Gaelic poet, short story writer and playwright, has produced his first novel in English, *"The Alien Light"* (Houghton Mifflin Co., 192 pages, $4.95). The setting is in the early 19th century in the highlands of Scotland. The central character is Mrs. Scott, a self-sacrificing, elderly woman who, alone, must face eviction from her lifelong home because the Duke wants the land for raising sheep.

The book is simply written and deals mainly with the thoughts and feelings of Mrs. Scott. Her independence, her religious convictions, her desperate search for help—all are presented in a realistic, emphathetic manner. The reader identifies so strongly with Mrs. Scott that one views the essence of change in this situation as ruthless and full of despair. In the end, however, help does come from an unlikely source and Mrs. Scott finds a greater peace and security such as she has never known before.

Recommended for an evening of enjoyable reading. Ask for it at your local bookstore.

Pat Markas.

Greenfield

(200 years of history)

The Carolina Homemaker
Edited By Betty McBride

The pavement ends, and the dirt road curves as you enter the gates of Greenfield. The 200-year-old house with its double gallery is the sort of place people forget exists in North Carolina unless they visit the Albemarle section of their state.

The Albemarle area was one of the first permanently settled by the people who became North Carolinians. Mr. George Wood lives at Greenfield, the seventh generation of his family that settled the 1,200 acre plantation. George Wood and his brothers, Bembury Wood and Frank Williams grew up at Greenfield. During their childhood the master of Greenfield was George Wood, Sr. One of his wives, "Fan" Lamb Wood, was a special friend of novelist Inglis Fletcher.

Immediately, in the entrance hall of Greenfield, a mural tells the story of their boyhood. The mural, painted throughout the hallway, shows the family horseback riding, the boys fishing, and everyone attending church. This painted record of the family's life expresses the warmth and history of Greenfield.

Greenfield, with its lovely setting on the Albemarle Sound and its 200-years old history, attracted North Carolina writer Inglis Fletcher. She was seeking quiet and seclusion to write her second Carolinian novel.

Inglis Fletcher chose to live in a small house on the Greenfield plantation, a half mile from the house itself. In the evenings, the Fletchers were always dinner guests of the Woods.

During this stay with the Woods, Inglis Fletcher chose to use Greenfield as a setting for part of her novel. Greenfield became the fictional home of the two main characters in Fletcher's book, "Men of Albemarle."

Mrs. Fletcher has written how she enjoyed the hospitality and gaity of George and "Fan" Lamb Wood. A hunt board in the dining room today at Greenfield is a gift of Inglis Fletcher.

Greenfield is a house full of beautiful furnishings but three pieces of furniture are special. The most valued piece is a lady's Chippendale key-hole desk. This graceful desk was originally in the Cupola House in Edenton.

Secondly, Greenfield's large dining room features a double pedestal mahogany table by Duncan Fife. Duncan Fife was one of America's first well known furniture designers.

Greenfield's pride, historically, is having the original Edenton Tea Party Table. This table became the center of political activity before the revolution in 1774.

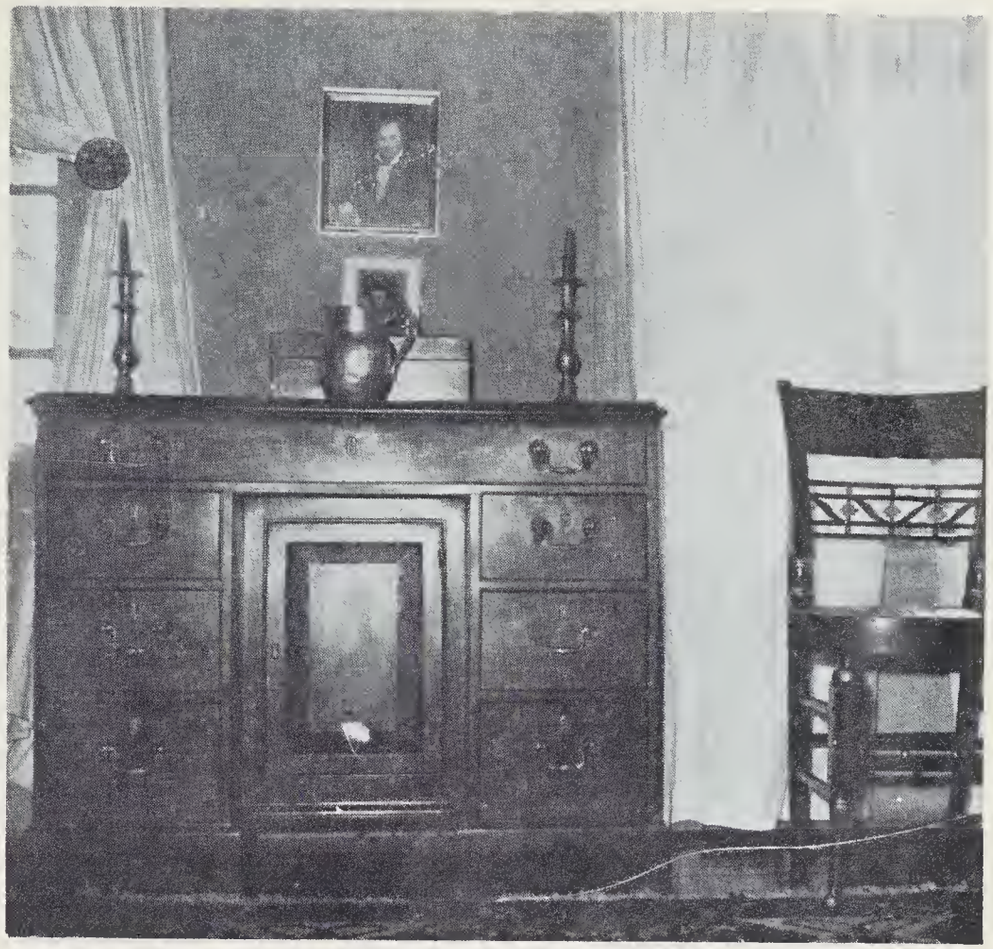
Fifty-one ladies from five counties in the Albemarle area met at the home of Mrs. Elizabeth King in Edenton. The gathering was presided over by Penelope Barker. As proof of their patriotism the 51 ladies refused to drink English tea and ceremoniously drank a concoction of dried mulberry leaves instead.

The colonial ladies were giving their support to the colonies. They did not want to seem indifferent to the actions that were affecting the peace of their country. This gathering of 51 ladies around the Edenton Tea Party Table in 1744 is one of the earliest known instances of political activity on the part of women in the American colonies.

Electricity lighted this pre-Revolutionary house in March 1948. George Wood Sr. helped incorporate Albemarle Electric Membership Corporation which brought lights to Greenfield. He served as vice-president of the Albemarle EMC board for three years.

Greenfield, with its people, its furnishings, and memories holds much history. Greenfield will always be a perfect setting.

Hunt board given by Inglis Fletcher.



This is the original tea table from the historic Tea Party of 1744 in Edenton.

Always a favorite piece at Greenfield, is this Chippendale key-hole desk.

SWISS STEAK SUPREME

Mrs. Marvin J. Greene of Troy, N.C. is sharing one of her favorite recipes with Kitchen Corner readers this month. Mrs. Greene writes that she has prepared Swiss Steak Supreme many times. She suggests that you use it as a main dish when guests are coming for dinner.

Mr. and Mrs. Greene are members of Randolph EMC. They have one daughter who is married and is a teacher.

Mrs. Greene says that she uses and enjoys the recipes in Kitchen Corner. We thank her for sharing her recipe with us.

If you have a favorite recipe you'd like to share through this column, send it to: Betty McBride, Kitchen Corner, P.O. Box 1699, Raleigh, N.C. 27602. Tell us something about yourself and family and give us the names of your electric membership corporation. We pay $2 for the recipe chosen monthly for this column.

CAROLINA FARMER RECIPE

Submitted by Mrs. Marvin J. Greene, Rt. 2, Box 73-A, Troy, North Carolina.

SWISS STEAK SUPREME

2 lb. round or flank steak (1 or 1-1/2 in. thick)
2-1/2 c. cooked tomatoes
1 medium sliced onion
1 Tbsp. Worcestershire sauce
1/2 tsp. black pepper
1 tsp. vinegar
1 clove garlic
2 Tbsp. catsup
2 Tbsp. brown sugar
1 tsp. salt

Pound 6 tablespoons flour into sides of steak. Brown in hot fat. Add all ingredients. Cover, cook over low heat or in oven until tender—2 to 2-1/2 hours. Uncover the last 15 minutes and let sauce thicken.

TEMA's Statewide President Stresses Rural Developement

Noel Lee, Jr. is a farmer, insurance man and community leader with prematurely white hair who in his middle years heads a statewide association which, through its member systems, represents more than a million Tar Heels.

As president of Tarheel Electric Membership Association, he is involved in a program whose objectives happen also to be his own—the improvement of the lot of rural people and the development of a better rural economy for a more prosperous North Carolina.

His life has been a commitment to rural needs. As a farmer himself, he knows the needs well. Now he is dedicating himself to meeting them.

Noel Lee, Jr. owns a 208-acre farm on which he and his wife live, near Pactolus in Pitt County, in a modern, long and roomy brick home. Over half of the 208 acres are under cultivation in tobacco, peanuts, cotton, corn, soybeans and sweet potatoes, with a few cows, hogs and chickens for home needs. The operation is managed by his eldest son, but Noel did all the farming until 1963 and still stresses he is a farmer.

As an insurance man, he represents the North Carolina Farm Bureau Mutual, Southern Farm Bureau Life and the recently-combined Blue Cross and Blue Shield health insurance companies as a special agent in Pitt and Beaufort counties. He's what he would call a low-pressure salesman, and when he is selling, he finds himself listening more than talking.

He also works with the U.S. Department of Agriculture doing crop surveys, labor surveys and other surveys for the Statistical Reporting Service throughout Eastern North Carolina.

As a community leader, he is a charter member of the Pactolus Ruritan Club, a director of Edgecombe-Martin County Electric Membership Corporation of Tarboro, an active member of Pactolus Baptist Church and president of the Pactolus Rural Fire Department. Through these organizations, he has helped promote and establish a number of community projects.

Noel got into the rural electric program in 1948 when Edgecombe-Martin County EMC extended a line into the Leggetts Crossroads-Pactolus area. The service, he recalls, was a direct result of the work of the Utilities Committee of the Pactolus Ruritan Club. The club, chartered in 1944, grew out of the Fellowship Club which Noel helped organize in the Pactolus area a year earlier. He has had a perfect attendance record throughout the 26 years.

The Utilities Committee, of which Noel was a member, visited the nearby towns in an effort to get electric service without success. Turned down, the committee wound up calling on Edgecombe-Martin County EMC. The next day, a man from the EMC arrived in the community to begin securing rights-of-way and to sign up members.

Six years later, in 1954, Noel was elected to the board of directors of the EMC. Again, his Ruritan connection played a part.

There was, he recalled, a vacancy on the board due to the death of a director. Carl Scott, a fellow Ruritan, although not of the Pactolus Club, had a brother, Milton Scott, on the Edgecombe-Martin County board. Carl Scott recommended Noel for the vacancy and G. Leslie Rucker, the EMC manager, called on Noel to discuss the director's job.

That was the first meeting of two men who were to work together in many ways for the advancement of the area Edgecombe-Martin County EMC serves.

"Les Rucker," he said, "has been a right hand man to me since I've been a director . . . He's a person who enjoys doing things, not to get credit but to help people."

Noel Lee, Jr. sees his role as president of TEMA as twofold: (1) To serve as chairman for the various TEMA meetings, and (2) more important, to coordinate and develop greater cooperation between all of North Carolina's EMCs to the end that they can better serve their members and their state and achieve together common goals and build greater support for the rural electric program.

He views the role of the EMC as twofold as well. The EMC, he pointed out, exists not only to provide dependable, low-cost electric service but also to promote the development of the communities it serves.

"If the community doesn't grow," he said, "the EMC won't grow."

As a director of an EMC, he feels he has a duty to be involved in the affairs of his community and area. "A director of an EMC," he stressed, "has got to be involved in community life."

Noel Lee, Jr. was born August 26, 1918, in the Pitt County farm in a house which still stands adjacent to his present home.

His father, a farmer, died in May, 1951. His mother, Elizabeth Arneta (Lizzie) Lee, died in May, 1950.

Noel, the youngest of nine children, has one living brother. three living sisters, Mrs. Linda Beddard of Richlands, Mrs. Capitola Beddard of Williamston and Mrs. Maxine Pierce of Hamilton.

He attended Pactolus Elementary School and Pactolus High School. "I graduated in a class of five in May, 1935, and that completed my formal education," he said.

While a high school student, Noel met the young lady, Sarah Elizabeth Bowers of Pactolus, who was to become his wife.

"The principal would send me down to teach first and second year algebra," he said. "Sarah was in the Ninth Grade. So you can say I taught my wife."

Noel liked math but his ambition was to be a lawyer. As a farm boy in the Thirties, he couldn't afford to go to college. He has, however, made himself a well-read and well-informed man.

He likes to read. He has a library at his home, and he says he reads everything from the comics on a Sunday morning to the Bible on a Sunday evening.

RURAL ELECTRIC PROFILE

Mr. and Mrs. Noel Lee, Jr. with one of their sons and Connie, Tammy and Jackie.

In addition to his reading, he has availed himself of every course he could take, from the Life Underwriters Training Course (of which he is a graduate) to the many institutes and courses held for electric directors and managers.

Noel Lee, Jr. and Sarah Elizabeth Bowers were married Dec. 12, 1936. "I took her out of the Tenth Grade and married her," he said. "She's been a real Trojan to put up with me these 32 years."

The Lees have four children. Edward Earl Lee lives with his wife, Francis Toler Lee, and the Lees' three grandchildren, in the old homeplace where his father was born. James R. Lee and his wife, the former Penny Fowler of Sylvester, Ga., live in Washington, N.C. Margaret Ann Lee teaches at Lynhaven Elementary School at Virginia Beach, Va. Noel Lee, III is a freshman at Atlantic Christian College. The grandchildren, all girls, are named Connie, Tammy and Jackie.

Noel Lee finds it hard to say how he fits his many activities into a work week. In addition to his insurance selling and related travel, his farming interests and his community and church and Ruritan activities, he attends meetings of the Edgecombe-Martin County board at least once a month, TEMA business meetings at least once a month and frequently has to make trips to Raleigh.

Just prior to his election as president of TEMA, he was president of Edgecombe-Martin County EMC. He served in that post from April 1966 to April 1968. The EMC rotates the office of president and vice president. Eight of the 10 present directors have served as president. "I think," Noel noted, "this has been healthy, real healthy."

His activities in Ruritan affairs have included terms as secretary, vice president, president, director and treasurer of the Pactolus club; zone governor, district governor, and national treasurer of Ruritan Nation as well as a member of the national Ruritan board of directors.

He finds particular satisfaction in his work with his church. "It is the most rewarding," he said. He is now a member of the Board of Deacons of Pactolus Baptist Church; chairman of the Board of Trustees, a post he has held for eight years; director of the Training Union, a past chairman of the Board of Deacons, and he, Mrs. Lee and son Edward Earl, all teach Sunday School classes there.

The Pactolus Rural Fire Department which he helped organize and now serves as president has two pumpers, a water truck and 22 volunteer firemen. He is also a past member of the Pactolus School Board and presently serves as a member of the Advisory Committee for the Pactolus Elementary School.

He feels that farmers should be organized, and he has been a member of the North Carolina Farm Bureau Federation since 1938.

"The three organizations outside my church that I'm a member of—the Ruritans, the Farm Bureau and my EMC—have this in common," he said. "They serve the rural people." Strong rural organizations are vital, he said, if we are to build a better society and better communities, and are important to everybody, rural and urban.

Lee is a member of the Moose Lodge in Washington, N.C., the Beaufort County Life Underwriters Association, and a past president of it, and also the National Committee for the Beaufort County Life Underwriters.

Mrs. Lee, who shares his interest in church activities, teaches the Junior Girls Sunday School Class (Noel teaches the Intermediates) and is a member of the Pactolus Home Demonstration Club.

"Other than my family," Noel Lee, Jr. said, "my greatest satisfactions have come in working with and serving people, and working with the schools (on the school board, the advisory committee and in the PTA). I've been working with schools since 1943.

"I enjoy people and if I've been successful in any area of my life, I guess I owe it to my wife, for her love, patience and encouragement."

As a member of the Edgecombe-Martin County EMC board, Noel Lee, Jr. has been a partner with his fellow directors and EMC Manager G. Leslie Rucker in a continuing program of community service and development.

Les Rucker, a native of Virginia, attended the University of Rich-

(Continued on Page 22)

"Should Parents Have a Voice In Who Their Teenager Dates?

"I feel that before parents voice their opinion on anyone that their son or daughter may be dating, they should get to know that person and find out what he or she is really like. They should keep whatever feelings they have about the person to themselves for awhile. It can happen that the son or daughter detects no bad traits or qualities about the person, yet the parents still do not approve of the date. Then the parents should have a heart-to-heart talk with their son or daughter and try to clear things up."

Wanda Hinson
Rt. 7
Monroe

Wanda is 15 years old and a sophomore at Monroe High School. Her hobbies are sewing and dancing. Her parents, Mr. and Mrs. Leroy Hinson, are served by Union Electric Membership Corporation.

★ ★ ★ ★ ★ ★ ★

"I believe that parents should have an opinion about whom their teenager dates. Although I believe this, I do not believe that they should pry into their teenager's affairs just to get a good gossip session topic for the bridge club. To a certain extent, they should find out what kind of person their teenager is dating. That does not mean questioning the teenager constantly. After the dating relationship seems to get a little stronger, the parents should make an effort to get better acquainted with the teenager's date."

Juanita Waddell
Rt. 1
Laurel Springs

Juanita is 13 years old and attends Sparta Junior High School. She likes to sing, dance and play baseball. Her parents, Mr. and Mrs. W. P. Waddell, are served by Blue Ridge Electric Membership Corporation.

"Parents are concerned about their sons and daughters. I feel they should give their children their viewpoint on their dates. A positive 'yes' or 'no' is not always the best thing. This is too authoritarian. However, just to discuss the matter in somewhat 'positive' or 'negative' tone should be sufficient. Today's teenagers like to be independent, but they also like understanding, helpful parents. Parents aren't always acquainted with their teenager's dates, but their efforts to get to know them mean a lot."

Alfreda Harvey
Rt. 3
Enfield

Alfreda is a junior at Eastman High School. She enjoys singing, dancing and writing. She is president of the student government at Eastman. Her parents, Mr. and Mrs. Newbern Harvey, are served by Halifax Electric Membership Corporation.

★ ★ ★ ★ ★ ★ ★

"Parents should allow their child to choose his own friends, but teenagers should try to see the parent's viewpoint. Since a teenager is just beginning to select his friends, he may easily be mistaken in his choice of a companion. In contrast, the parents may sight a bad sign in the relationship before it is too late. Parents and teenager should discuss the matter. If the parent is dead-set in his decision, the wise teenager will let the air clear before bringing the matter up again. In the meantime, the teenager should do a little thinking as to why the parent dislikes the date."

Vickie J. Martin
Rt. 2
Mt. Airy

Vickie is a freshman at East Surry High School. Her hobbies are dancing and listening to music. Her parents, Mr. and Mrs. Curtis L. Martin, are served by Surry-Yadkin Electric Membership Corporation.

Teen ROUNDTABLE

If you have a good answer, send it to THE TEEN ROUNDTABLE, The Carolina Farmer, P. O. Box 1699, Raleigh, N.C. 27602 at once. Tell us a few facts about yourself—your age, school, hobbies, etc. Include your parents' name, and the name of the electric membership corporation serving you. If your answer is published, we will send you $5.

If you want to submit a question, send it along for our statewide panel to answer. For each question used, the sender will get a $5 check. Jot yours down and send it to us right away.

NEXT QUESTION

What can a student do when he does not get along with a teacher and the subject is required?

This question was submitted by Ernestine Ivey, who will be receiving $5 from THE CAROLINA FARMER. Ernestine is a junior at Parkwood High School. Her parents, Mr. and Mrs. Julius Sistare, are served by Union Electric Membership Corporation.

David A. Hamil Returns to REA

David A. Hamil, who served as REA administrator from 1956 to 1961 under President Eisenhower, has been appointed to a new term as REA administrator by President Nixon.

Hamil succeeds Norman Clapp, who served as REA administrator for eight years under President Kennedy and President Johnson.

David A. Hamil

Hamil became active in the rural electrification program in 1939, when he helped sign up members and organize the Highline Electric Association of Holyoke, Colo. He served on the board of directors of Highline for five years.

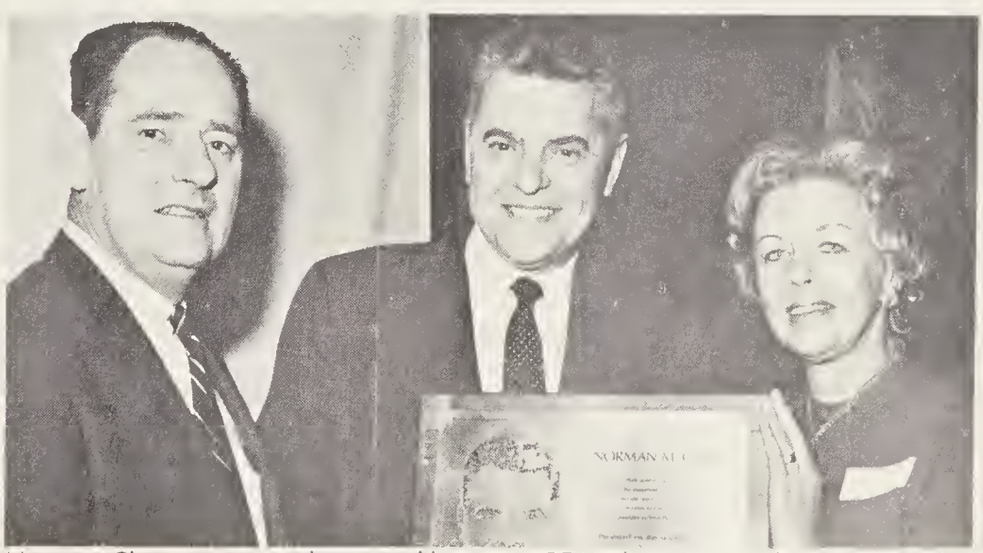
Born Dec. 3, 1908, in Logan County, Colo., Hamil graduated from Hastings College (Nebraska) in 1930. While a student, he was Midwestern AAU champion in the cross-country run.

Since his college days, he has been a rancher and farmer in Logan County, where he and his brother, Donald W. Hamil, own and operate 4,500 acres, about 1,000 acres of which are irrigated. Their principal business is the fattening of cattle with about 5,000 head on hand at all times. They also are producers of sugar beets, alfalfa and corn.

Elected to the Colorado General Assembly in 1938, Hamil served in it continually with the exception of a two-year term in 1948-49 until his appointment as REA administrator June 26, 1956. He was speaker of the Colorado House of Representatives from 1951 to 1956. He resigned as REA administrator Feb. 3, 1961.

From Jan. 8, 1963, until his new appointment by President Nixon, he was director of the Colorado State Department of Institutions.

Mrs. Hamil is the former Genevieve Robinson of Denver. The Hamils have three children: Mrs. Jo Ann Ostwald, 33, wife of Dr. Donald A. Ostwald, a veterinarian of Fort Morgan, Colo.; Donald William Hamil, 31, of Sterling, Colo., who is associated with his uncle in the farming and ranch business, and Staff Sgt. Jack R. Hamil, 27, stationed with the Air Force in Korea. All three are graduates of Colorado State University.



Norman Clapp, center, who served longer as REA administrator than anyone else, receives a plaque commemorating his long and distinguished service from General Manager Robert D. Patridge of the National Rural Electric Cooperative Association. Mrs. Clapp stands at her husband's side. Clapp served from 1961 to 1969.

Getting the Vote

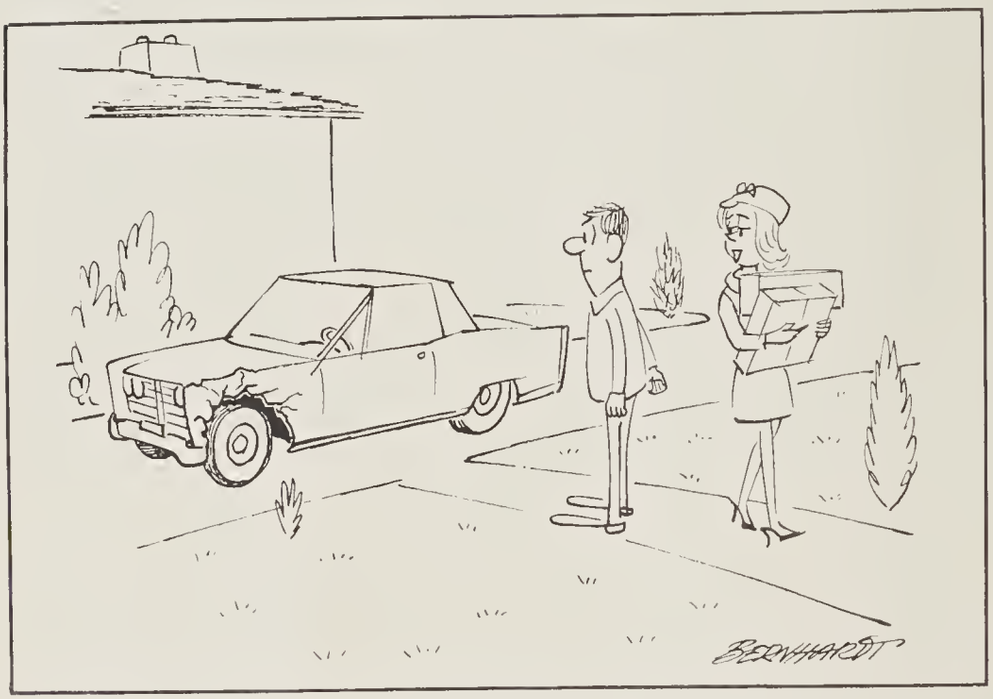
A well-known Republican, in giving advice to a colleague, said that his method of getting votes for the Republican Party this year was to give every cab driver a large tip and then tell him, "Vote Republican."

"I use a slightly different method," said the second Republican. "I give them no tip at all and then tell them, "Vote Democratic!"

Shape Problem

A chronic nibbler, the housewife simply couldn't stick to a diet. Finally she hit upon a reminder scheme that worked. She pasted a big picture of a shapely, briefly-clad model on the refrigerator door.

During the first month she lost seven pounds. During the same time her husband couldn't stay away from the refrigerator and gained eight pounds.



"Someone in the parking lot must have opened their door against it."

Passing The Buck

A preacher came along and wrote on a blackboard: "I pray for all."

A lawyer came along and wrote under that: "I plead for all."

A doctor wrote: "I prescribe for all."

Then a workman came by and read these carefully and then wrote. "I pay for all."

College Reunion

Two old friends met at a luncheon and began to reminisce about former girl friends. One said, "How about Suzie? Has she kept her wonderful figure?"

The other man smiled and said, "Kept it? Why, she's doubled it!"

"I don't believe in long engagements, so let's just keep going steady for a couple of years."

(Continued from Page 17)

mond, served in the Navy during World War II and was a U.S. REA field representative before becoming EMC manager in January, 1951.

Edgecombe-Martin County EMC, first North Carolina electric co-op to become operational, received its certificate of convenience and necessity Oct. 1, 1936 and its charter June 13, 1939. It began service April 17, 1937 with 32 miles of line and 66 members.

The years since have been years of growth. In the past 10 years, membership has grown from 4,367 member-families at the end of 1958 to 5,282 at the end of 1968. Growth in power use by members has reduced the average cost of current used by members from 3.08 cents per kwh to 2.26 cents. At the same time, Edgecombe-Martin County EMC has grown financially. It has repaid $966,354.67 of the $2,436,500 it has borrowed from REA, plus $589,632.36 in interest. Member equity capital invested in its system has grown from 24.46 percent at the end of 1958 to 39.49 percent at the end of 1968. A total of $1,412,270 has been assigned in margins and $442.105 has been retired in capital credits.

In addition to farms and homes, the EMC serves 204 commercial and industrial users including 12 with demand of 50 kw or more, 17 schools and 64 churches.

Rucker was one of the organizers and first president of Tarboro-Edgecombe Development Corporation and still is one of its directors. The corporation has been instrumental in the location of eight major industries in the area creating over 1,800 new jobs.

Serving with Lee as directors of the EMC are: W. K. Benson, Battleboro, president; R. L. Eason, Rt. 1, Elm City, vice president; W. J. Eason, Rt. 3, Tarboro; J. W. Eubanks, Hassell; H. P. Jenkins, Pinetops: R. V. Knight, Tarboro: C. W. Mayo, Rt. 1, Tarboro: M. V. Scott, Pinetops, and M. D. Wilson, Rt. 1, Robersonville, secretary. Benson is a member of the N.C. Rural Electrification Authority and Scott a past member of that State board.
